Interface Questions (Our Website)

Questions to be answered after

What did you like about our current interface?

It's clean and spaced out

What did you not like about our current interface?

A lot of scrolling, maybe clicking a bus route should take it directly to the map

What would you do to make the website look more appealing to users?

It looks good to me

What additional features would you like in our to make it more useful for the user?

Time remaining until the bus reaches a user's bus stop

Were the buttons that we had on the website self explanatory about what they were meant to do?

○ Yes

○ No

◉ Some of them yes, other no

If a button was not obvious to what it did, which was it? What did you think it did versus what it actually did?

Just the side bar one, but once the user clicks it they will know what it is useful for

Interface Questions (Our Website)

Questions to be answered after

What did you like about our current interface?

looks pretty

What did you not like about our current interface?

never mess with scroll. I would prefer a single page site with no vertical scrolling so that zoom works

What would you do to make the website look more appealing to users?

make it more useable

What additional features would you like in our to make it more useful for the user?

the functionality itself, not just mock up (yeah that's obvious)
